First of all, we would like to express our deepest gratitude to our professor, Prof. Dan Michael Cortez, who guided and understood us throughout the whole school year.

To our dearest panelist, Prof. Charito Molina, Prof. Criselle Centeno, Ms. Aljen Amodia, Mr. Abezier Andes and Mr. Lindon Maquidato who gave their comments and suggestions to make this study possible.

To our dearest parents for giving their endless support from the very beginning until the end of the study, we would also like to extend our appreciation to Engr. Erwin Marcelo for assisting us despite of his busy schedule.

To our classmates, especially the group of SystematiCS who worked with us side by side, through thick and thin, ups and downs, through better and for worse, especially when we feel like giving up, and to Mr. Jojo Casidsid who supported and helped us throughout the course of this study.

To PLM Physical Facilities Management Office for they gave us the opportunity, entertained us to conduct interviews assisted us in understanding their existing system and provided all the documents we needed for our study.

Lastly, to our Lord God, for giving us wisdom, determination and perseverance to continue making this study despite of the problems that we have encountered.
