

Acknowledgement

First of all, we would like to express our deepest gratitude to our professor, Prof. Charito Molina, who guided and understood us throughout the whole school year.

To our dearest panelists, Prof. Dan Michael Cortez and Prof. Merlita Latip, who gave their comments and suggestions to make this study possible.

To our dear parents for giving their endless support from the very beginning until the end of this study. We would also like to extend our appreciation to Mr. Dong Caling for assisting us in the hospital despite his busy schedule.

To Gat Andres Bonifacio Memorial Medical Center for they gave us the opportunity, entertained us to conduct interviews, assisted us in understanding their existing system and provided all the documents we needed for our study.

Lastly, to our Lord God, for giving us wisdom, determination and perseverance to continue making this study despite of the problems that we have encountered.
